

WARRANTIES-AT-A-GLANCE PLUS EXTRA PARTS COVERAGE!

Maximum Strength Warranties For Homeowners

Every Heil® home comfort product is backed the way it's built—to be the best. How do you know for sure? Warranty coverage. When it comes to such a major investment, there's no better gauge of quality. Maximum strength warranties from Heil give you exceptional protection and complete assurance that you'll have lasting satisfaction with your Heil product.

No Hassle Replacement™ Limited Warranty

Heil offers a replacement unit if a major component, such as the compressor, outdoor coil or heat exchanger, should fail during the No Hassle period. That's an indicator of how confident you can be in the reliability of any product that carries the Heil name.

The No Hassle Replacement™ limited warranty varies in length of limited coverage—from 1 year up to 10 years to the original purchaser. Your heating and air conditioning dealer will recommend the best product options for your home and installation requirements. The charts in this brochure are a handy comparison to show you the exact number of No Hassle Replacement limited warranty years, based on your choice of product. As the product features get better, so does the No Hassle Replacement limited warranty to give you the perfect match for your heating and cooling system.

Key Component & Parts Warranties

In addition to the No Hassle Replacement limited warranties, Heil backs the compressor and heat exchanger components with exceptional limited warranties. Product parts are also covered for a full 5 to 7 years. If you're thinking that Heil warranties must be among the best in the industry, you're right.

HELP® Extended Service Warranty

HELP® is a factory-supported extended service agreement providing unsurpassed financial security. You can take comfort knowing that, in the event a covered component fails, HELP covers major expenses for the term of the contract: 2 year, 5 year, 7 year or 10 year program options—with no deductible!

Ask your Heil dealer for the HELP plan that best fits your needs, and take advantage of this offer to give you total security.

Some restrictions apply, so please refer to the Warranty Certificate for complete details. To learn more about all of these limited warranties, go to Heil-HVAC.com and click on "Warranty" on the menu.

For a limited time only, you can receive up to 5 extra years of parts promotional warranty coverage at no additional cost. Some restrictions apply. See Heil-HVAC.com for promotion details.

**Efficiency ranges from 14 to 18 SEER, depending on the model and indoor match.

†Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit www.energystar.gov.

The highest system efficiencies are achieved when outdoor units are matched with indoor units featuring high efficiency indoor fan motors. See ARI Directory for details.

***Entry model compressors are covered under the promotional parts limited warranty up to 10 years.
